To whom it may concern,

Re: Marius Senekal

This serves to confirm that Marius Senekal has been in control of our IT for the past 1.5 years.

He is very knowledgeable. No job was too big or small for him.

He was always friendly and assisted where necessary. He was proactive in everything he did and if there was a problem, he worked on it until it was sorted out. He did not fix it temporary. Once he was done you know it is sorted.

Marius will definitely be an asset to any company.

Regards
